Use 'command' '+' '-' to delete line directly

Delete location:

(1) gsu- 775 Commonwealth Ave 1st floor;

Result: only find 3rd floor and 5th floor in our

[update_foot_traffic_minus_covered_floors.csv]excel. However, gsu dining is only in 1st floor, so no need to delete these two floors.

(2) The fresh food company at warren towers- 700 Commonwealth Ave 4^h floor ;

Result: do not find 4rd floor in our

[update_foot_traffic_minus_covered_floors.csv]excel, so no need to exclude floors

(3) The fresh food company at marciano commons -100 Bay State Road, in 1-2 floor;

Result: find 2nd floor in our [update_foot_traffic_minus_covered_floors.csv]excel, so
exclude this floor

(4) The fresh food company at west campus -- 275 babcock st

Result: find some floors in our [update_foot_traffic_minus_covered_floors.csv]excel,
however since i do not know exact floor of this dining hall, i cannot exclude it.

(5) Fresh Fuel at Granby Commons - 213 Bay State Road 3rd floor

Result: find 3rd floor in our [update_foot_traffic_minus_covered_floors.csv]excel, so
exclude this floor
